NOTICE OF PRIVACY PRACTICES

This Notice is effective March 4, 2019

THIS NOTICE DESCRIBES HOW MEDICAL INFORMATION ABOUT YOU MAY BE USED AND DISCLOSED AND HOW YOU CAN GET ACCESS TO THIS INFORMATION. PLEASE REVIEW IT CAREFULLY.

WE ARE REQUIRED BY LAW TO PROTECT MEDICAL INFORMATION ABOUT YOU.

We are required by law to protect the privacy of medical information about you and that identifies you. This medical information may be information about healthcare we provide to you or payment for healthcare provided to you. It may also be information about your past, present, or future medical condition.

We are also required by law to provide you with this Notice of Privacy Practices explaining our legal duties and privacy practices with respect to medical information. We are legally required to follow the terms of this Notice.

We may change the terms of this Notice in the future. We reserve the right to make changes and to make the new Notice effective for *all* medical information that we maintain. If we make changes to the Notice, we will:

- Post the new Notice in our waiting area.
- Provide copies of the new Notice available upon request. Contact our Privacy Officer at **803-713-6296** to obtain a copy of our current Notice.

The rest of this Notice will:

- Discuss how we may use and disclose medical information about you.
- Explain your rights with respect to medical information about you.
- Describe how and where you may file a privacy-related complaint.

If at any time you have questions about information in this Notice or about our privacy policies, procedures or practices, contact our Privacy Officer at **803-713-6296**.

WE MAY USE AND DISCLOSE MEDICAL INFORMATION ABOUT YOU IN SEVERAL CIRCUMSTANCES

We use and disclose medical information about patients every day. This section of our Notice explains in some detail how we may use and disclose medical information about you in order to provide healthcare, obtain payment for that healthcare, and operate our business efficiently. This section then briefly mentions several other circumstances in which we may use or disclose medical information about you. For more information about any of these uses or disclosures or about any of our privacy policies, procedures or practices, contact our Privacy Officer at **803-713-6296**.

1. Treatment

We may use and disclose medical information about you to provide healthcare treatment to you. In other words, we may use and disclose medical information about you to provide, coordinate or manage your healthcare and related services. This may include communicating with other healthcare providers regarding your treatment and coordinating and managing your healthcare with others. This may include but is not limited to: doctors, nurses, technicians, medical students, or other professionals involved in taking care of you.

Example: Jane is a patient at the health department. The receptionist may use medical information about Jane when setting up an appointment. The nurse practitioner will likely use medical information about Jane when reviewing Jane's condition and ordering a blood test. The laboratory technician will likely use medical information about Jane when processing or reviewing her blood test results. If, after reviewing the results of the blood test, the nurse practitioner concludes that Jane should be referred to a specialist, the nurse may disclose medical information about Jane to the specialist to assist the specialist in providing appropriate care to Jane.

2. Payment

We may use and disclose medical information about you to obtain payment for healthcare services that you received. This means that we may *use* medical information about you to arrange for payment (such as preparing bills and managing accounts). We also may *disclose* medical information about you to others (such as insurers, collection agencies, and consumer reporting agencies). In some instances, we may disclose medical information about you to an insurance plan *before* you receive certain healthcare services because, for example, we may need to know whether the insurance plan will pay for a particular service. We may use your information to prepare a bill to send to you or the person responsible for your payments.

Example: Jane is a patient at the health department and she has private insurance. During an appointment with a nurse practitioner, the nurse practitioner ordered a blood test. The health department billing clerk will *use* medical information about Jane when he prepares a bill for the services provided at the appointment and the blood test. Medical information about Jane will be *disclosed* to her insurance company when the billing clerk sends in the bill.

3. Healthcare Operations

We may use and disclose medical information about you in performing a variety of business activities that we call "healthcare operations." These "healthcare operations" activities allow us to, for example, improve the quality of care we provide and reduce healthcare costs. For example, we may use or disclose medical information about you in performing the following activities:

- Reviewing and evaluating the skills, qualifications, and performance of healthcare providers taking care of you.
- Providing training programs for students, trainees, healthcare providers or non-healthcare professionals to help them practice or improve their skills.
- Cooperating with outside organizations that evaluate, certify or license healthcare providers, staff or facilities in a particular field or specialty.
- Reviewing and improving the quality, efficiency and cost of care that we provide to you and our other patients.
- Improving healthcare and lowering costs for groups of people who have similar health problems and helping manage and coordinate the care for these groups of people.
- Cooperating with outside organizations that assess the quality of the care others and we provide, including government agencies and private organizations.
- Planning for our organization's future operations, such as when uses and disclosures are necessary to run our facility and make sure that all of our patients receive quality care.
- Resolving grievances within our organization
- Reviewing our activities and using or disclosing medical information in the event that control of our organization significantly changes.
- Working with others (such as lawyers, accountants and other providers) who assist us to comply with this Notice and other applicable laws.

Example: Jane was diagnosed with diabetes. The health department used Jane's medical information – as well as medical information from all of the other health department patients diagnosed with diabetes – to develop an educational program to help patients recognize the early symptoms of diabetes. (Note: The educational program would not identify any specific patients without their permission.)

4. Persons Involved in Your Care

We may disclose medical information about you to a relative, close personal friend or any other person you identify if that person is involved in your care and the information is relevant to your care. If the patient is a minor, we may disclose medical information about the minor to a parent, guardian or other person responsible for the minor except in limited circumstances. For more information on the privacy of minors' information, contact our Privacy Officer at **803-713-6296**.

We may also use or disclose medical information about you to a relative, another person involved in your care or possibly a disaster relief organization (such as the Red Cross) if we need to notify someone about your location or condition. You may ask us at any time not to disclose medical information about you to persons involved in your care. We will agree to your request and not disclose the information except in certain limited circumstances (such as emergencies) or if the patient is a minor. If the patient is a minor, we may or may not be able to agree to your request.

Example: Jane's husband regularly comes to the health department with Jane for her appointments and he helps her with her medication. When the nurse practitioner is discussing a new medication with Jane, Jane invites her husband to come into the private room. The nurse practitioner discusses the new medication with Jane and Jane's husband.

5. Required by Law

We will use and disclose medical information about you whenever we are required by law to do so. There are many state and federal laws that require us to use and disclose medical information. For example, state law requires us to report gunshot wounds and other injuries to the police and to report known or suspected child abuse or neglect to the Department of Social Services. We will comply with those state laws and with all other applicable laws. These activities generally include the following but are not limited to:

- to prevent or control disease, injury, or disability,

- to notify a person who may have been exposed to a disease or may be at risk for contracting or spreading a disease or condition,
- to report gunshot wounds, knife stabbing, suspicious injury and burns, as required by law,
- to release information to your employer when we have provided health care to you at the request of your employer.
- to report reactions to medications or problems with products,
- to report births and deaths; stillborns, injury, cancer surveillance, trauma to the trauma registry data bank, birth defects, heart attacks to the national registry of myocardial infarctions and for required public health investigations

In other words, the government has determined that under certain circumstances (described below), it is so important to disclose medical information that it is acceptable to disclose medical information without the individual's permission. We will only disclose medical information about you in the following circumstances when we are permitted to do so by law. Below are brief descriptions of the "national priority" activities recognized by law. For more information on these types of disclosures, contact our Privacy Officer at **803-713-6296**.

We may also use or disclose medical information about you to a correctional institution in some circumstances.

7. Authorizations

Other than the uses and disclosures described above (#1-6), we will not use or disclose medical information about you without the "authorization" – or signed permission – of you or your personal representative. In some instances, we may wish to use or disclose medical information about you and we may contact you to ask you to sign an authorization form. In other instances, you may contact us to ask us to disclose medical information and we will ask you to sign an authorization form.

Once we agree to your request, we must follow your restrictions (except if the information is necessary for emergency treatment). You may cancel the restrictions at any time. In addition, we may cancel a restriction at any time as long as we notify you of the cancellation and continue to apply the restriction to information collected before the cancellation.

You also have the right to request that we restrict disclosures of your medical information and healthcare treatment(s) to a health plan (health insurer) or other party when that information relates solely to a healthcare item or service for which you or another person on your behalf (other than a health plan) has paid us for in full. Once you have requested such restriction(s) and your payment in full has been received, we must follow your restriction(s).

6. Right to Request an Alternative Method of Contact

You have the right to request to be contacted at a different location or by a different method. For example, you may prefer to have all written information mailed to your work address rather than to your home address.

9. Notice of Participation in HIE EXCHANGE

HEALTH INFORMATION EXCHANGE (HIE) makes it possible for your doctor to share your medical history, including medications, allergies, diagnoses, and procedures, with other doctors and health care providers involved in your care. It is a safe and secure network that makes sure your personal health information is available to your doctors and other health care providers when and where it is needed.

HIE (Health Information Exchange):

HOW YOUR ELECTRONIC HEALTH INFORMATION MAY BE USED OR SHARED

Your health information is available when and where it is needed, whether it is a routine office visit or in case of an emergency. This includes coordinating your health care with other health care providers who have signed on as members of the HIE and agreed to follow all policies and procedures.

HIE members may include health care providers licensed in the State of South Carolina, including medical doctors, dentists, chiropractors, optometrists, podiatrists, pharmacists, physician assistants, and nurse practitioners.

Example:

We would share your electronic health information, as necessary, through the HIE with another doctor who requested to see your electronic health information to provide care to you.

In emergencies, including any visits by you to an emergency department at a hospital that is a member of the HIE, we will allow emergency doctors and nurses to see your personal health information so you may receive the most appropriate care. Personal health information that may be shared includes your personal information that may identify you, general information, diagnoses, test results, prescriptions, claims data, and clinical notes.

You may 'Opt Out' of the HIE (Health Information Exchange). By opting out, your personal health information will not be shared through the HIE. If you wish to opt out of the HIE, you must ask for, complete, and sign an Opt Out form that tells us in writing that you do not want your personal health information included in or shared through the HIE. Should you wish to opt out and let us know in writing of your decision by giving us a signed Opt Out form, we will take steps to make sure your personal information cannot be viewed, used, or shared through the HIE.

If you change your mind and wish to have your electronic health information shared through the HIE, you may cancel your Opt Out. To cancel your Opt Out, you or your personal representative must complete and submit a signed HIE form to HIM Director/HIPAA Privacy Officer.

10. Lastly, a note about Patient Portals and health information exchanges (HIE): Patient Portal:

The Patient Portal is a mechanism by which you, or your authorized representative, can access your health information online after your care and treatment. Information will include, but is not limited to, procedures that were performed, a list of current or past medical issues, discharge instructions, medical history, and lab results. Patients, or their authorized representatives, are only provided access to their own health information, and no other individual may access a patient's health information via the Patient Portal. This is optional and requires the patient/patient representative (With proper paperwork signed by the patient) to contact our HIM department (803-713-6818) and set up an account.
